

Sinu-Foam™ Nasal and Sinus Dissolvable Dressings

Carboxymethylcellulose (CMC) dressing promotes optimal surgical outcomes

Stamberger and Sinu-Knit® Sinu-Foam Dressings are the **ONLY** dissolvable CMC dressings that provide *both* a moist environment conducive to easier debridement and maximum spatial integrity

Sinu-Foam benefits include:

High viscosity foam is easily placed in the sinus cavity

Spatial integrity

- Prevents the middle turbinate from lateralization

Controls minor bleeding

- Controls intra/postoperative oozing via platelet aggregation

Easy debridement

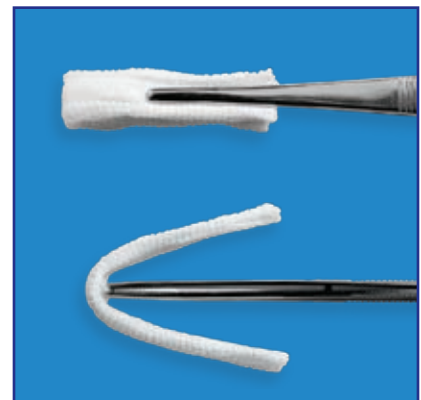

- Moist environment provides for easy debridement minimizing crusting plus offers a pathway for epithelialization

Dissolves away

- Through normal outflow, typically 7–10 days after procedure

Injectable Stamberger Sinu-Foam
(RR 650)

Sinu-Knit Sinu-Foam Dressing
(RR 600)

Sinu-Foam™ Nasal and Sinus Dissolvable Dressings
