Pupillary Distance Meter PD 82 II

Diode technology brings big benefits to the PD82II digital Pupillary Distance Meter.

Improved battery life and no need for bulb changes are two major enhancements you will find when you use this PD meter.

Benefits

- Extremely accurate.
- The result is digitally displayed showing PD left, right and combined.
- Accuracy range +/- 0.25mm
- Individual or complete measurement of the PD
- Variable measuring distance from 30cm to infinity.
- Energy saving auto shut off feature.
- Vertex distance measurement.

Technical Data

Measuring Method Corneal reflex coincidence method

Measurement range 46 to 82 mm (binocular),
23 to 41mm (Monocular)
0.5mm steps.

Display LCD digital display.

Fixation point Green dot illuminated background

Measurement distance 30cm to infinity

Illumination Maintenance free LED

Electrical supply 4 batteries Mignon AA 1,5v

Dimensions 155(Width) x 255(Depth) x 55(Height)

Accessories Dust Cover
